## Life By Design & 5 Steps to Being an Entrepreneur

Life By Design was created by Valerie Lebel. She was at an Arbonne National Conference where she saw the Angel Foundation which makes a difference for Teens and their Self Esteem.

She created Life By Design to inspire teens and people to learn more about the benefits of Entrepreneurship and Business Ownership.

She has invited me to speak as an entrepreneur to inspire families.

I spoke from a book I was given 20 years ago, by my niece, 'Rich Dad Poor Dad', on how it has positively influenced me to be an

Entrepreneur.

I referenced 'Rich Dad Poor Dad for Teens' & how each of us has Intellectual Property & Talent that we can share with the world.

It is also important to find a good person to Apprentice or Mentor with as you develop your skills and knowledge.

Have you

discovered

what your true talents are that you want to give the world?

### 5 Steps to Becoming an En-

trepreneur:

1. Identify Your Talent

What talents do you have that you could teach other people?

2. Cultivate Your Talent

Are you practicing your talent on a regular basis? How often?

3. Establish a Business

Setting up an LLC is a simple process:

A. Pick a name you love

B. Search on the web if that name exists

C. Register LLC

5. Share Your Talent through service for \$

6. Pay Yourself First –Save a minimum of %20

Valerie took a course I created last October 2013 called Money Mindset to Money Magnetism.

## ENTREPRENEUR EXPERIENCE

After speaking to 15 teenagers & their mentors, I came away feeling so excited. I taught them the concepts I am learning in my Secret to Life Coaching Program & through the Global Information Network.

The question began as this: "What do you want if money were no object and you knew you couldn't fail?"

He wrote down the car of his dreams and then said:

"I would steel a car & then pay for myself to get out of jail."

We spoke & he saw that in his dream he could buy the car and would not have to steel it.

He then began to think of his dream to own a Car Auto Body Shop or a

Taco shop. He began to see ways that he could create having the car of his dreams!

It was so fulfilling for me to see him shift his mindset!

I would love to teach this to more teens and adults!

## MIND BODY BLISS SUCCESS STORY

Zeph Smith took my course Mind, Body, Spirit Bliss in May of 2014.

In his interview he shared that he is enjoying his success & appreciated the opportunity.

The problem he had before he took Mind Body Spirit Bliss is that he could not stick to an exercise routine.

This problem impacted his life in that he was feeling bad about himself & losing confidence.

His back was deteriorating & it was harder for him to move. His back was stiff & his joints were going out of alignment easily.

It was costing him the ability to play with his children.

The turning point that had him choose to get support was that he saw the benefit of having somebody support him in his exercise routine.

He also did a meditation where he saw the fulfillment of staying to an exercise routine.

Through my Discovery Session call he saw that he could keep it simple, that it could be easy to start & continue. He has seen great results during his first exercise routine. He designed a routine that

would be quick and effective.

He now has stronger muscles.

He says he was very consistent the first month. He enjoyed exercise and saw the growth.

He had a set back with his back and took some time off.

He is back to his exercise routine & finds it easy and satisfying.

He started with one pull up and can now do 5. He has lost 10 lbs.

He has been able to wrestle & play badminton & basketball & other outdoor activities with his children.

## 3 KEYS TO AWAKEN YOUR PASSION FOR LIFE!

### #1 THINK ABOUT WHAT YOU WANT

Your concerns are valid if spoken in a positive way. Think about what your priorities are, what makes you the happiest that you want or want more of.

### # 2 KNOW WHAT YOU WANT

In The Book - "It Works" by

RHJ "The Famous Little Red Book That Makes Your Dreams Come True"! He says to write down what you want in order of priority & importance what you want.

### # 3 THINK ABOUT WHAT YOU WANT MOST OF THE TIME!

There are a few techniques for thinking about what you want

in a PASSIONATE way.

1. Share what you want with a committed listener
2. Share what you want with excitement
3. Think about it at least 3 times a day.

**IGNITE YOUR PASSION AND LOOK FORWARD TO YOUR SUCCESS!**
